

Coordinated management and networking of Mediterranean wetlands

2,252 M€
Project budget

1,914 M€
ERDF / IPA

30 Months
Project duration

The aim of the project is to **improve the effectiveness of conservation policies** in relation to protected **wetlands** in the MED area. It will analyze, test and disseminate new forms of institutional collaboration and it will develop a mechanism for the integration and coordination of the various plans and initiatives focused on the protected wetlands. Participatory tools will be tested in order to actively involve local stakeholders in the conservation, management and sustainable development of ecosystems and landscapes of the wetlands.

Project partners

Veneto Region
